

OUR YACHTS

Galapagos: Up Close and Personal

Enchanted Expeditions offers an opportunity to see the Galapagos Islands aboard our comfortable 16 passenger motor yachts and motor sailers (Beluga and Cachalote I, among others). Our small-sized groups allow visitors to see the best sites, some of which are off limits to large cruise ships. Each boat has a full crew including a multilingual naturalist guide who has been trained and licensed by the Galapagos National Park Service and the Charles Darwin Research Station.

Participants do not need boating experience but should be prepared for life on board. For those who want a close up experience of the islands, yacht travel will be exhilarating.
